

BRAND MAGAZINE 2017

WHERE WILL TODAY TAKE YOU?

In life, a journey is never a simple straight line and each step brings on new challenges. Swiss Peak understands that everyone requires different products that will fit their particular life styles and meet their specific needs.

Swiss Peak helps to keep you prepared for whatever journey you might take. No matter where your day will take you.

SPIRITED

Like the spirit of the Swiss mountain that forms their initial inspiration, Swiss Peak products are here to be a part of your stories and to accompany you on your life's journey.

OUR STORY

Since Swiss Peak's introduction of the first line of travel sets in 1992, performance, organization and modern design have been its core values. By creating superior quality products for discerning people, Swiss Peak has become a recognized brand of luxury travel, business and lifestyle accessories.

Its success can be traced to the continuous focus on principles of design excellence, functional superiority and technical innovation.

COB & CREE

- COB (Chips on board) is a new revolutionary lighting technique that will replace the traditional LED light in the coming years. COB are multiple little lighting chips placed on a flat yellow strip which provide many advantages:
 - COB is one steady light source giving a much higher quality of light than LED using multiple small light sources.
 - COB uses the energy sources more efficiently than regular LED lights resulting in a longer life cycle for the product.
- Cree is a company that produces quality technique LED lights, using Silicon carbide to generate more light more efficiently and more equally divided light over a bundle of LEDs.

MULTI TOOL ‘RANGER’

You can do any odd job with this strong 15 functions multi tool. Supplied with protective pouch. Black and anthracite finish give this multi tool its bold look. This is a serious product, one you will be able to use on countless occasions. Your toolkit could hold one, and the same goes for your car, your workplace and your travel gear. It is not a coincidence this is called a multi tool.

The rounded edges feel comfortable in the palm of your hand, even if you have to apply some pressure to do some repair work. You can rely on the strong stainless steel and the lightweight aluminium frame to handle any job. The liner lock ensures safe use of the fold out tools. After use, make sure to clean the tool before storing it in its protective nylon pouch. Rinse with (warm) water and remove any dirt with a brush or cloth. The multi tool should be dry before storing. Be moderate with the use of oil.

ANTI THEFT BACKPACK

Every day 400.000 pick pocket incidents occur worldwide. Never worry about this happening to you with the Swiss Peak Anti-Theft laptop backpack. Key features as cut-proof material, hidden zipper closures and secret pockets will keep your belongings safe during your commuting. Besides being the safest backpack it is also the most convenient backpack with features such as: an integrated USB charging port, weight balance, water repellent fabric, illuminating safety strips and luggage strap.

01/HIDDEN ZIPPER

Its genius lies in the hidden zipper that is fully hidden in the back of the bag. No thief will be able to find the opening of your bag, and thus the way to your belongings.

02/HIDDEN POCKETS

There are hidden pockets in the sides and back. You can put your valuables here such as: wallet, passport, phone etc. You can grab your belongings without taking off your backpack.

03/CUT-PROOF

The bag is designed with 300D/600D and has 6mm anti-shock foam. Beneath these layers there is a cut-proof protection board, making the front and sides of the backpack cut-proof.

04/NIGHT SECURITY

The illuminant bar on the back and sides of the bag will make sure you travel safely during the night. Because of these security bars, you won't be invisible. The lights can be seen within 100 meters.

05/USB EXTERNAL CHARGING

There is an external charging port in the bag. Simply connect the powerbank from inside and charge your mobile device.

DANCING IN THE RAIN

Being professional about work. Good results come with good material. Swiss Peak allows you to live up to your high professional standards.

ANTI-SKIMMING

RFID stands for Radio-Frequency IDentification, it refers to a small chip with an antenna in small electronic devices (like your credit card). The card must be scanned to retrieve the identifying information.

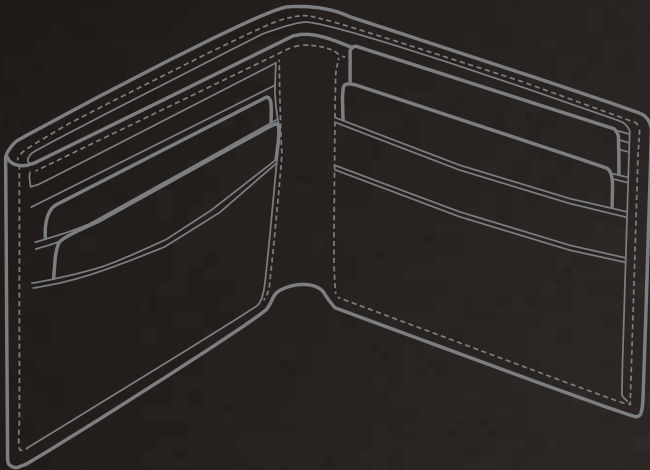

01/PROTECTION

The RFID card holder provides an additional layer of protection, and protects against access by NFC-equipped Smartphones.

02/PREVENTION

Prevent unwanted capture of data from contactless or “Smart” cards issued by banks, governments and other institutions such as:

- Credit or debit card
- ID card
- Access / Security Control / School ID
- Health insurance, Medical ID
- Driver’s license
- Transit / Park pass
