EI CORTE

FISURA, imprimimos en las colecciones nuestra visión diferente de la misma realidad y a través de nueva imagen corporativa hemos conseguido reflejarlo.

Mucho trabajo, mucha ilusión y sobre todo mucha creatividad han marcado el cambio total en cuanto a imagen corporativa se refiere, dando como resultado una mayor visibilidad, prestigio y otorgando a la marca un valor añadido que nos diferencia claramente frente a la competencia.

Fisura, grieta, desplazamiento, universos paralelos, multiplicación, son las directrices que una de las agencias de diseño más importantes de nuestro país han utilizado para actualizar nuestra imagen, construyendo una nueva base que ha aportado solidez, dinamismo y potencia en todos los ámbitos.

Añadido a esto, el logotipo conforma una serie de aspectos que provienen del concepto Fisura / Corte, resaltando la idea de ese contraste mediante la dicotomía e intersección entre la luz y la sombra, así como sus geometrías generando un contenedor reconocible que “unifica” la imagen de la marca.

El rediseño del packaging funciona como hilo conductor que cohesiona y admite la identificación de una gran variedad de productos. Mediante materiales y líneas simples, se ha conseguido un diseño optimizado, neutro, versátil, divertido y atractivo para una gran variedad de público.

WE'VE GOT THE EDGE

FISURA, we are intergrating our vision and making our mark with our new brand image.

After a lot of work, much enthusiasm and above all creativity our new image has resulted in greater visibility that gives the brand an added value and that differentiates us from our competitors.

We have worked with one of the most prestigious design agencies in Spain to update our image which we feel gives us strength, dynamism and power in all areas.

Our logo forms a series of shapes that reflect FISURA's brand values. These being the contrast between light and shadow and geometries that generate recognizable shapes that “unify” our brand image.

The redesign of our packaging unites and supports the identity of a wide variety of products. By using materials and simple lines, we have created an optimized, neutral, versatile, fun and attractive design.

NUESTROS FELPUDOS

Los felpudos FISURA son de fibra de coco 100% natural.

Los felpudos FISURA están hechos con la cáscara del coco. Los productores de coco en la costa del sur de la India, utilizan todo del coco, por lo que prácticamente nada se desperdicia.

- Cada felpudo utiliza cerca de 25 cocos.
- Las cáscaras primero se “sazonan” en las lagunas de la costa, luego se golpean a mano para extraer la fibra.
- Los felpudos son pintados y coloreados a mano.
- Para secarlos, se exponen a la luz del sol, este tiempo varía dependiendo de la época del año, durante la época del monzón se tarda en fabricar un felpudo hasta 90 días.
- La base antideslizante mantiene el felpudo firme en su lugar y reduce el riesgo de resbalones. Hemos hecho un guiño a la mejor marca de zapatos con nuestra base roja.

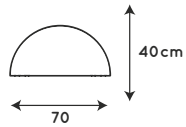

FISURA DOORMATS

Fisura doormats are made of 100% natural coconut fiber.

FISURA doormats are made from the husk of the coconut. The coconut growers on the coast of Southern India, Kerala use every part of the coconut, so that virtually nothing goes to waste.

- Each mat uses the husks of about 25 coconuts.
- The husks are first “seasoned” in the lagoons off the coast, then each husk is beaten by hand to extract the fibre.
- The doormats are painted and colored by hand.
- They are exposed to the sunlight, it is the traditional method to dry the paint. The drying process varies depending on the season, during monsoon season it takes up to 3 months to make a doormat.
- The anti-slip backing keeps the mat firmly in place and reduces the risk of slipping. We have made a wink to the best shoe brand that is why our surface is red.
